

August 3, 2023

To whom it may concern:

I am writing to express interest in the User Interface Engineer opening that was advertised recently on LinkedIn.

I am a recent graduate with a wide skillset and passion for proving myself. My prior experience includes being head of software for my capstone project at UC Irvine. In addition, I have worked at D&D Security throughout my summer breaks developing Salesforce applications, webpages, workflows, and components. I also have website development skills, namely Node.js, JS, Bootstrap, Firebase, HTML and CSS, which I used to build a streaming website that syncs media between users. These experiences have given me insight into teamwork, planning, business, design, as well as knowledge of common open-source software and databases. I am proficient in Java and Python with 8 and 5 years of experience respectively.

I am confident that with my current knowledge, along with my strong work-ethic, I will prove to be a valued asset. My resume is attached for your review. I would welcome the opportunity to further discuss this position either in person or over the phone. I can be reached at the phone number provided below or via e-mail at jacobschwarzenberger123@gmail.com.

Thank you for your consideration!

Sincerely,

A handwritten signature in black ink, appearing to be 'JS' with a stylized flourish.

Jacob Schwarzenberger
